

Revision Date: 19/April/2019

Prepared according to 29CFR 1910.1200.

Section 1**Chemical Product and Company Identification**

COREL PHARMA CHEM

Near Railway Crossing,

Thol Road, Kadi, Mehsana

Mehsana

Gujarat, India

Tel: 02764-24223

Product Trade Name

ACRYPOL ET-2020 POLYMER

Ingredients

Acrylic Polymer (>98%)

INCI Name

Acrylates/C10-30 Alkyl Acrylate Crosspolymer

Product Type

Not applicable.

Transportation Emergency

FOR TRANSPORT EMERGENCY call Mr. K.R.

Patel Phone No. 91-8000880011 / 22 /33

MSDS No.

MSDS/QAD/152(01)/19-20

Section 2**Hazards Identification**

Appearance

White powders

Odor

Slight acetic

Principal Hazards

Caution.

Dusts may be harmful if inhaled

May cause eye irritation

See Section 11 for complete health hazard information.

Section 3**Composition/information on ingredients**

Hazardous Ingredients

This material contains no ingredients requiring disclosure under regulatory hazard criteria for this jurisdiction. See Section 11for detail information.

Revision Date: 19/April/2019

Section 4**First Aid Measures**

- Eyes : Immediately flush eyes with plenty of one percent (1%) physiological saline solution for five (5) minutes while holding eyelids open. If no saline is available, flush with plenty of clean water for fifteen (15) minutes. See a physician. Water (Moisture) swells this product into a gelatinous film which may be difficult to remove from the eye using only water.
- Skin : Wash with soap and water. Get medical attention if irritation develops. Launder contaminated clothing before reuse.
- Inhalation: Remove exposed person to fresh air if adverse effects are observed. If breathing is labored, administer oxygen. If breathing has stopped, apply artificial respiration. If irritation persists or if toxic symptoms are observed, get medical attention.
- Oral : Treat symptomatically. Get medical attention.
- Additional: Note to physician: Treat symptomatically.
- Information

Section 5**Fire Fighting Measures**

- Flammability : Not Applicable
- Class
- Flash Point : Not Applicable
- Extinguishing: CO₂, dry chemical, foam, water spray, water fog. Carbon dioxide may be ineffective on larger fires due to a lack of cooling capacity which may result in re-ignition. Avoid hose stream or any method which will create dust clouds.
- Media
- Firefighting: Wear full protective fire-gear including self-containing breathing apparatus operated in the positive pressure mode with full face-piece, coat, pants, gloves and boots.
- Procedure
- Unusual Fire: Solid does not readily release flammable vapors. Material can form
- &Explosion Hazards an explosive organic dust air mixture.
- See section 10 for additional information.

Fire and Explosive Properties

- Min. Explosive Concentration : 80g/m³
- Minimum ignition energy : 0.2 joules (dispersed dust cloud)
- Deflagration Index, K_{st} (estimate) : 275 bar m/sec
- Maximum rate of pressure rise : 786 bar/s @ 500 g/m³

Revision Date: 19/April/2019

Maximum explosion pressure : 6 bar @ 500 g/m³
Volume resistivity : > 3.68 x 10⁺¹⁵ ohm-cm
Explosion Severity : 5.2 (Severe)
Ignition temperature of dust cloud : 520°C (968°F)

Section 6**Accidental Release Measures**

Spill Procedures: Personal Protective Equipment must be worn, see Personal Protection Section for PPE recommendations. Take precautions to avoid release to the environment. Prevent entry into sewers and waterways. Dispose of in accordance with all federal, state and local environmental regulation. Avoid raising a dust. Wash spill area with detergent. Material is slippery when wet.

Section 7**Handling and Storage**

Pumping Temperature: Not applicable.

Maximum Handling : Not determined.

Temperature

Handling Procedures: Maintain good housekeeping practices. Do not discharge into drains or the environment, dispose to an authorized waste collection point. Use appropriate containment to avoid environmental contamination. Avoid drinking, tasting, swallowing or ingesting this product. Avoid inhalation of dust, aerosol, mist, spray, fume, or vapor. Use with appropriate and adequate ventilation. Avoid contact with eyes, skin and clothing. Ground and bond containers when transferring material. Avoid prolonged skin contact. Launder contaminated clothing before reuse. Dispose of packaging or containers in accordance with local, regional, national and international regulations.

Maximum Storage: Not determined.

Temperature

Storage Procedures: Store in a cool, dry, well-ventilated area. Keep container closed when not in use. See section 10 for incompatible materials.

Maximum Loading: Not determined.

Temperature

Revision Date: 19/April/2019

Section 8	Exposure Controls/Personal Protection
------------------	--

Exposure Limits : None established

Other Exposure : The industry-recommended permissible exposure limit for limit respirable polyacrylate dusts is 0.05 mg/m³

Engineering : If use generates a dust, local exhaust ventilation is recommended. Control Prevent inhalation by providing effective general and, when necessary, local exhaust ventilation to draw dust away from workers. Avoid high concentrations of dust in air and accumulation of dust on equipment.

Gloves Procedures: Use good industrial hygiene practices to avoid skin contact. If contact with the material may occur wear chemically protective gloves.

Eye Protection : Safety glasses or goggles.

Respiratory : Use dust masks and depending upon your specific use, Protection appropriate respirator can be used with all applicable regulations.

Clothing : Long sleeve shirt is recommended.

Recommendation

Section 9	Physical and Chemical Properties
------------------	---

Flash Point : Not applicable.

Upper Flammable Limit : Not determined.

Lower Flammable Limit : Not determined.

Auto-ignition Point : 520 °C, 968 °F

Explosion Data : Dust can form explosive mixtures in the air.

Vapor Pressure : Not determined.

pH : 2.5 - 3 at 1% in water

Specific Gravity : 1.4 (20 °C)

Bulk Density : < 0.24 Kg/L

Water Solubility : Material will swell in water.

Percent Solid : Not determined.

Percent Volatile : < 2% By Weight

Volatile Organic Compound : Not determined.

Vapor Density : Not determined.

Evaporation Rate : Not determined.

Odor : Slight acetic

Appearance : White powder.

Viscosity : Not determined.

Revision Date: 19/April/2019

Odor Threshold : Not determined.
 Boiling Point : Not determined.
 Pour Point Temperature : Not determined.
 Melting / Freezing Point : Not determined.

Section 10	Stability and Reactivity
-------------------	---------------------------------

Stability: : Material is normally stable at moderately elevated temperatures and pressures.
 Decomposition : Not determined.
 Temperature
 Incompatibility : Heat may be generated if polymer comes in contact with strong basic materials like ammonia, sodium hydroxide or strong basic amines.
 Polymerization : Will not occur.
 Thermal : Smoke, carbon monoxide, carbon dioxide, aldehydes and other
 Decomposition products of incomplete combustion.
 Conditions to Avoid : Not Determined.

Section 11	Toxicological Information
-------------------	----------------------------------

-- ACUTE EXPOSURE --

Eye Irritation : Not expected to cause eye irritation. Based on data from components or similar materials. Particulates may cause mechanical irritation. Solid particles (powder or dust) on the eye may cause pain and irritation.

Skin Irritation : Not expected to be a primary skin irritant. Based on data from components or similar materials.

Respiratory Irritation : Breathing of dust may cause coughing, mucous production, and shortness of breath.

Inhalation Toxicity : Avoid inhalation of dust. Animal studies indicate the inhalation of respirable polyacrylate dust may cause inflammatory changes in the lung.

Dermal Sensitization : Not expected to cause skin sensitization. Based on data from components or similar materials.

Inhalation Sensitization: No data available to indicate product or components may be respiratory sensitizers.

Revision Date: 19/April/2019

-- CHRONIC EXPOSURE --

- Chronic Toxicity : There were no observed adverse effects at exposures of 0.05 mg/m³. However, the inhalation of respirable dusts should be avoided by implementing respiratory protection measures and observing the recommended permissible exposure limit of 0.05 mg/m³.
- Carcinogenicity : Not listed as a carcinogen or suspect carcinogen by OSHA.
- Mutagenicity : No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
- Reproductive Toxicity : No data available to indicate either product or components present at greater than 0.1% that may cause reproductive toxicity.
- Teratogenicity : No data available to indicate product or any components contained at greater than 0.1% may cause birth defects.

-- ADDITIONAL INFORMATION --

- Other : Pre-existing skin conditions may be aggravated by prolonged or repeated exposure. Persons with sensitive airways (e.g., asthmatics) may react to vapors. This material readily absorbs moisture and may become thick and gelatinous upon contact with mucous membranes of the eye, or upon inhalation into the nasal passages.

Section 12**Ecological Information**

Freshwater Fish Toxicity : The acute LC₅₀ is 100-1000 mg/L based on literature.

Freshwater Invertebrate Toxicity : The acute EC₅₀ is 100-1000 mg/L based on literature.

This product is not biodegradable; do not inhibit waste treatment bacteria; and do not pass through typical waste water treatment to the environment.

Section 13**Disposal Considerations**

- Waste Disposal : This material, if discarded, is a hazardous waste under RCRA Regulation 40 CFR 261. Treatment, storage, transportation, and disposal must be in accordance with applicable Federal, State/Provincial, and Local regulations.

Revision Date: 19/April/2019

Section 14**Transport Information**

No dangerous good in sense of this transport regulation. This mixture is not classified as dangerous according to International Transport Regulations (ADR/RID, IMDG)

14.1. UN number

ADR/RID : Not regulated.
ICAO : Not regulated.
IMDG : Not regulated.

14.2. UN proper shipping name

ADR/RID : Not regulated.
ICAO : Not regulated.
IMDG : Not regulated.

14.3. Transport hazard class(es)

ADR/RID : Not regulated.
ICAO : Not regulated.
IMDG : Not regulated.

14.4. Packing group

ADR/RID : Not regulated.
ICAO : Not regulated.
IMDG : Not regulated.

14.5. Environmental hazards

ADR/RID : Not regulated.
ICAO : Not regulated.
IMDG : Not regulated.

Section 15**Regulatory Information**

SARA Ext. Haz. Subst. : This product does not contain greater than 1.0% of any chemical substance on the SARA Extremely Hazardous Substances list.

SARA Section 313 : This product does not contain greater than 1.0% (greater than 0.1% for carcinogenic substance) of any chemical substances listed under SARA Section 313.

Revision Date: 19/April/2019

SARA 311 Classifications :

Acute Hazard	Yes
Chronic Hazard	No
Fire Hazard	No
Reactivity Hazard	No

Section 16	Other Information
-------------------	--------------------------

The information set forth herein has been gathered from standard reference materials and / or Corel Pharma Chem test data. The information containing herein is based on the present state of our knowledge and is intended to describe our product from the view of safety requirements. It should not therefore be construed as guaranteeing specific properties.

This product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with any legal regulation. Safe handling and use remain the responsibility of the user.
